by the City of Bullhead City. Gronseth points out the unique linkage between the river and the hiking trails, within trail system, enhances the site. Discussion continues regarding the multi-use status of the trail. Kesselman indicates the submitted STS trail application only included hiking uses, not horseback, mountain biking or other uses. Gibson recuses himself from motion vote due to the trail being a BLM trail. Motion passes unanimously.

After vote, Ralley raises question regarding last year's unsuccessful admission of Monument Hill Trail in Avondale into the STS, and whether the application may be resubmitted. Gronseth indicates the application may not have met submittal deadline. Baldwin reports Federal Highways did not support application due to tribal/cultural impacts and would most likely not qualify for RTP funding until this is resolved. Current status is unknown.

Gronseth made a motion to nominate Colorado River Nature Trail System to the State Trails System. Motion was seconded by Gibson. Motion passes unanimously.

#### **Update from the Subcommittee Reviewing Trails in the AZ State Trail System.**

Gibson reports he was unable to meet with Cox, as planned, to review STS trail information due to his fire duties over the summer. Gibson indicates an intern is continuing working on an STS GIS mapping project and he is open to a meeting later in the year to begin STS review process. Kesselman recalled that Keller volunteered to be on subcommittee along with himself, Gibson, and Cox. Lund reminded the subcommittee on the large scope of the project and encouraged steady progress in future meetings. Gibson invited subcommittee members to gather and briefly discuss future plans after the ASCOT meeting. Kesselman asked if Keller is the chair of the subcommittee. Lund indicated she is the chair of the subcommittee.

#### **ASCOT Will Discuss Their Potential Involvement in the International Trails Symposium (ITS).**

Lund reports that ASCOT formed 2 subcommittees in last meeting to assist in facilitating the symposium. He indicated that he is on the ITS Program Committee and several well put-together programs are on the agenda and a well-rounded list of programs is being finalized. Pfender is chair of subcommittee of managing presentations. Pfender reminds Lund that she will not be an ASCOT member during the ITS (April 2013) and asks if she may still serve in this role. Lund indicates it is not a problem. Lund clarifies role of subcommittee as more of a room monitor role, assisting ITS speakers and directing them to the right rooms, as per ITS Chairs Kent Taylor and Annie McVeigh. Pfender inquires about the number of rooms and participants in order to assess the number of room monitors needed for the symposium. Lund reminds subcommittee that anyone can assist during the ITS, not subcommittee members exclusively and it's a good opportunity to get others involved. Kesselman volunteers to be a room monitor. Phender is open to volunteers and encourages ASCOT members to let her know of interested parties.

Gibson indicates that he is Chair of the ITS Transportation Committee. He requests volunteers to drive ITS participants to and from venues, hotels, field trips and the airport. Gronseth inquires as to the hours drivers will be needed. Gibson indicates drivers will most likely be needed for most of the day, rotating 8 hr shifts, 6am-10pm potentially.

Lund states the other ASCOT Subcommittee involved with ITS facilitation is the one regarding CEU's. Arndt and Keller are co-chairs of that subcommittee. Arndt indicates that the Arizona Planning Association and the American Society of Landscape Architects will require ASCOT to pay for participation in their CEU program. The fee depends on the number of CEU's and the number in the group participating. Arndt and Keller will continue to inquire about the CEU options. Gibson indicates American Trails may finalize a decision on CEU's in a meeting set for 10/2.

### **ASCOT Will Discuss Using The State Parks Volunteer Hours Tracking System.**

Lund reports on the new volunteer hours tracking system for State Parks and its role as a useful tool. He instructs the committee on how to log into the system and properly record their hours of volunteer work as it relates to State Parks. Lund reminds members that all efforts, including travel time to and from ASCOT meetings, subcommittee meetings, research, and meeting preparation count as volunteer hours. Pfender asks if hours should be recorded retroactively. Baldwin answers that hours need to be tracked from 1/1/12 going forward. Lund describes the tracking system and that staff has added a category just for ASCOT and comments may be added also. Baldwin reminds committee that volunteer hours worked by non-ASCOT members, as it relates to ASCOT work, can be counted in ASCOT member's tracking logs.

### **Consider the New Member Recommendations of the Membership Subcommittee and Make A Recommendation for Final Approval by the State Parks Board.**

Pfender (Chair) reports that a telephonic meeting occurred the previous week, including herself and members Gronseth, Cox, and Gibson and they agreed to a recommendation after reviewing applications. Pfender states the committee is allowed to recommend up to 4 applicants from government, up to 5 from user groups and 1 as citizen at large. In this cycle, 2 applications from government, 5 from user groups, and 4 from citizens at large were submitted. Cox indicates only 5 positions were to be filled. Lund requests clarification if current ASCOT members that applied for reappointment need to leave the room. Baldwin indicates that the meeting is open to the public and is public record, so members up for reappointment are welcomed to stay. Kesselman suggests that in future recommendations, ASCOT members would receive applications in their agenda packets for review prior to voting at meeting. Pfender agrees that all future applications could be sent to all ASCOT members, not just subcommittee members, for review. Lund asks if applicants not selected will receive letter informing them of the decision. Baldwin indicated they will be notified of

the decision prior to State Park Board meeting. Pfender describes nominees' backgrounds in making a motion to adopt the subcommittee's recommendation: Claire Miller (Govt), Nick Lund (User Group), Patrick Kell (User Group), Craig Stevens (User Group), and Doug Von Gossig (Citizen at Large). The new group of ASCOT members will serve a term from 1/1/13-12/31/15.

Gronseth indicates the recommendation considered a diversity of users, including horseback users as well as mountainbikers. Pfender says the desire is to include members from all parts of the state, but that is a difficult task. Fortunately, this group of nominees is geographically diverse with Claire Miller as the only nominee from Maricopa County. Other nominees are from Eastern or Northern Arizona. Pfender states that past applicants should be encouraged to reapply. This group of applicants which weren't chosen had not applied in the past but will be encouraged to reapply for future ASCOT vacancies. Kesselman remarks on the impressive due diligence and thought put into the selection process by the subcommittee.

Pfender makes a motion to nominate recommended ASCOT candidates, as listed. Motion was seconded by Cox. Motion passes unanimously.

After the motion vote, Baldwin reminds ASCOT that those applicants not selected to be nominees may serve as valuable assets on other projects and research for ASCOT and its subcommittees.

### **Staff Will Report on the Non-motorized Trails Grant Applications Received and the ASCOT Members of the Rating Team Will Provide Observations on the Rating Process.**

Prior to trail grant application discussion, Baldwin introduces Jerry Underwood as the new Grant Coordinator for State Parks.

Baldwin reports on the grant application review. He indicates ASCOT set the criteria for the review process. 27 trail grant applications were received, 16 trail maintenance project requests were submitted. Baldwin reminds the committee about some criteria they set forth for review of grant applications, including offering 10 pts for being an STS trail, and putting a cap on grants for \$100,000. Trail maintenance project limit is \$40,000 for this year. \$40,000 is the limit for the trail maintenance portion of projects whether and applicant applied for a grant or for the trail maintenance project program. Grant proposals are allowed to utilize funds for signage, kiosks, restrooms, and other facilities. Baldwin indicates that the OHV side is going to accept the trail maintenance project way of dispensing funds as well. Staff is still reviewing applications for this grant cycle and no recommendations will be made at this time. Baldwin, along with McVeigh, Arndt, and Keller evaluated each grant application based on the manual, as put forth by ASCOT.

Baldwin indicates that the first 5 grant projects total approximately \$500,000 in funding. There is roughly \$750,000 available this year. \$200,000 is available for the trail maintenance projects. Grant applicants for this cycle that have not been funded for the past 2 cycles include: Bradshaw Ranger Dist., Payson Ranger Dist., Verde Ranger Dist., and San Pedro NCA. Baldwin explains the obligation funding process.

State Parks receives money from ADOT to disburse, through the Federal Highway Administration. He briefly describes that AORCC (Arizona Outdoor Recreation Coordinating Commission) will be the deciding authority for awarding disbursements. Describing the evaluation criteria, Baldwin explains that renovation and maintenance of trails received the highest consideration for scoring. He reminds the committee that State Parks is limited by ADOT as to the amount we obligate to grant applicants, which is approximately 1.455 million dollars. This amount is split between motorized and non-motorized. Staff will take recommendations for funding to the November AORCC meeting.

Arndt commented that some needy applicant's trails she is personally familiar with scored surprisingly low. However, she also stated that the top 8-9 scoring applications were well thought out, spreading out requested funding components across the categories, helping to maximize their score. Arndt cited an example of a needy applicant (Mesa Ranger Dist. removing deteriorated asphalt and mitigating resource damage) didn't score high because of the relatively narrow scope of project. Lund asks if applicants are aware of all the scoring criteria prior to submitting application. Baldwin answers affirmatively, that all applicants are aware of scoring system. Baldwin cites an example of the Mohave County funding request to build a vault restroom at Dolan Springs Trailhead. Though it's a good project, it's so narrow in scope (a support facility) and didn't include trail construction or environmental mitigation, are among the reasons it scores so poorly (14pts).

Ralley asks Baldwin if the RTP scoring criteria could be adjusted to consider trail safety as a scoring factor. Baldwin indicates that ASCOT is free to set the criteria as they wish; however, Baldwin states that research conducted over the last 5 years show that present evaluation criteria are the biggest concerns. Lund suggests that after the current application cycles are completed, safety should be considered to add to the scoring criteria. Baldwin reminds the committee that specific definitions must accompany any change in criteria, such as safety. Arndt says the current process is fair and each application is reviewed at face value utilizing the same evaluation criteria. Some organizations and people are more adept at writing grant proposals than others, but we must simply consider the application that is submitted to us. Baldwin indicates that ASCOT members will be informed as to the recommendations by staff to the AORCC board prior to that meeting, if ASCOT members wish to attend. Gibson asked if the recommendations will go on to the State Parks board for final approval. Baldwin indicated they will not. Gibson asks if this is a new process. Baldwin indicates it is a new process. With a new consolidated trail grant process, AORCC will approve trail grant funding, closely tied with their previous grant approval authority. Lund thanks staff and members for their evaluation efforts.

**ASCOT members will report on current events and/or recent experiences of interest to the trails community and/or the status of any trail projects with which they may be involved.**

Gibson comments on fall and winter BLM trails projects, including Black Canyon National Recreation Trail connectors, GPS ground inventory of about 130 miles of

non-motorized trails in the Arizona Strip. Also, Juan Batista De Anza trail GPS location. This will begin a long process of locating and establishing the historical trail.

Ralley comments on the ATA members rendezvous at Mormon Lake. Also, Black Canyon City Heritage Park dedication on 11/10, which includes a 35 acre site including a visitor center and a stocked water installation.

Slay comments on the Black Canyon trail upgraded facilities, including a restroom.

Pfender comments on ATA installing water caches, which are a great resource and the lack of trail water resource primarily in Pinal County between Oracle and the Gila River which this helps mitigate. Also, new trailheads being established along the Arizona Trail. Grading is being worked on for new trailheads. ASARCO has helped with some work on the trailheads, as well as a horse group from Tucson called the County Line Riders, which installed horse-hitching rails. Signage needs to be completed for the trailheads. MBAA funding is being sought.

Kesselman comments on efforts in preserving Daisy Mtn., east of Anthem. A coalition has been organized to protect against development and establish future trails and recreation areas. Also, revving up for VOAZ fall season trail work. Highline trail, east of Payson, is a 2 day work event and is coming up next weekend.

Gronseth comments on extending contracts for trail vendors by the City of Phoenix. Also, comments on Echo Canyon renovations including installing new railroad tie steps and establishing new parking areas for Camelback Mt. and the city is establishing QR code programs on trails.

Ralley comments on how QR codes are being used and their increasing prevalence.

Arndt comments on upcoming MBAA meeting, which will include funding projects info.

Lund comments on how impressed he is with FS & AGFD, TRACKS cooperative agreements working with developer in return for easement. City of Show Low added trailhead, and walking bridge to the project called Show Low Bluff. TRACKS has safety project on trail system using coded blue diamond decals every ¼ mile w/GPS points and a corresponding map for emergency responders (sheriff, AGFD, FS, fire/police dept). This feature has greatly reduced emergency response time on the trail.

Ralley comments on the need for recruiting mentors for ITS youth scholarship participants.

## **TIME AND PLACE OF NEXT MEETINGS AND CALL FOR FUTURE AGENDA ITEMS.**

Staff and ASCOT members discuss potential future dates and locations for meetings.

Lund indicates ASCOT meetings typically begin at 9:00 AM. The following dates and locations are tentatively scheduled:

Jan 26, 2013 Catalina SP (Now scheduled for AGFD office in Tucson.)

Mar 22, 2013 Radisson or SP Office

May 17/18, 2013 Joint meeting with OHVAG

**Adjournment**

Lund called the meeting adjourned at 11:10am

**AZ State Committee On Trails Action Item / Report  
Agenda Item D-3.**

Title: **ASCOT Subcommittee for the State Trails Guide to Develop a Strategic Plan for Updating the Guide**  
Staff Lead: Jerry Underwood, State Trails Coordinator  
Date: January 25, 2013

---

**Recommended Motion(s):**

None.

**Status to Date:**

ASCOT formed a subcommittee charged with developing an approach and strategic plan to update the State Parks Trails Guide. Topics of discussion included the purpose and need of a State Parks Trails Guide, updating the guide, and criteria for trails to be in the STS.

The Subcommittee was informed at the December 12, 2012 meeting of an agreement between ASU and ASP to develop a Trails Application. The agreement is funded through RTP funding and is being developed as an app available on smartphones. The app database is set to include all trails in the STS, as well as additional trails systems provided by Maricopa County and Scottsdale. In addition to typical map and navigational capabilities, the app is proposed to have a trail search engine, location information, and hiking safety information components.

The following items discussed at the Subcommittee meetings are recommended for discussion by ASCOT.

1. The State Trails Guide will not be updated in hardcopy form. Instead, the "Trails App" database will be used to create the different types of trail information products needed. Coordination will be required between App developers (ASU) and trail managers (such as State Parks) to keep the database updated.
2. Re-evaluate the State Trail System's purpose, criteria, and what it should be as ASCOT moves forward. Currently, bonus points are awarded to STS trails in the grant evaluation process.
3. Determine what the criteria will be for selecting the trails that would be "showcased" and recognized as unique and significant. There are now over 700 trails designated in the STS.

**Time Frame:**

Present a status of findings to date at the next ASCOT meeting. Trails App has a target launch date of January 2013.

**Staff and Financial Resources:**

Activities in support of the advisory committees are part of the normal workload for the Resources and Public Programs Section staff.

**Recommended Motion(s):**

None.

**Status to Date:**

In the July 2012 ASCOT meeting, the group formed 2 subcommittees to review ways to facilitate the International Trails Symposium. Later, during the September 2012 ASCOT meeting, Chairman Lund clarified the role of the subcommittees, and any other ASCOT-associated volunteers, should be to provide the much needed support as room/session monitors. The monitors will serve to assist ITS speakers and attendees directing them to the right rooms. Additionally, at the September 2012 ASCOT meeting, Mr. Gibson indicated he is involved with the ITS Transportation Committee. He informed the committee that the symposium is in need of shuttle drivers. Shuttles will provide transportation to ITS participants to and from venues, hotels, field trips and the airport.

**Time Frame:**

The International Trails Symposium will take place at the Radisson Resort & Conference Center, near Fountain Hills, Arizona from April 14-17, 2013.

The awards will be presented in Washington, D.C. during Great Outdoors Week in June 2013 as part of the Coalition's ongoing effort to build awareness and appreciation of this highly successful program, which has greatly enhanced the quantity and quality of trail experiences available to the public. We will be holding the awards ceremony on Capitol Hill and will encourage Members of Congress to join us in honoring the outstanding achievements of their constituents.

Award winners will be selected from projects nominated by public agencies, trail administrators or other project sponsors. Projects must be completed in order to receive an award. In addition, projects completed before 2005 are ineligible. Project award categories will include: construction and design; maintenance and rehabilitation; education and communication initiatives; accessibility enhancement; multiple-use management or "corridor sharing"; environment/wildlife compatibility; and use of youth conservation/service corps.

We invite you to nominate an outstanding project and to encourage the sponsor(s) of an excellent project in your state to submit a nomination as well. A nomination form is enclosed for your use. **This year, for just the second time, we are also encouraging those making nominations to solicit support from their Members of Congress – both U.S. Representatives and U.S. Senators – to build awareness of excellent RTP-funded projects and the RTP program itself.** Additional information can be found on the nomination form.
